## 12

### DISRUPTION IN THE IT MARKET

Generative AI is no longer a novel concept for Indian IT companies in this decade, and there is no denying its potential to boost business growth and productivity for Indian IT companies. While many have already embraced it, the pace of overall transformational shift remains uncertain

## 40

### RAJAN'S CAUTIOUS STAND

The former RBI governor is of the opinion that the positive figures of India's growth need to be consistent for some time before one can celebrate it. He also feels that manufacturing-led growth might not be the best solution at hand
